What our exhibitors and visitors say

Exhibitors' testimonials

What an amazing few days at CPHI Shenzhen! Our stand was incredibly busy with thousands of visitors, and it was fantastic to meet so many passionate people in the China supplement industry. We are ready to turn those exciting new connections into real partnerships. Thank you to everyone who stopped by for a chat, we loved sharing what Parkacre is all about and can't wait to see what's next...

—— **Parkcare**

The exhibition attracted numerous professional visitors from Southeast Asia who showed strong interest in our natural plant pigments (such as paprika red and lutein) and standardized solutions, resulting in multiple cooperation intentions established on-site. The exhibition elevated our global brand influence and created an efficient pathway to explore emerging markets.

—— **Chenguang Biotech Group**

The three main exhibition halls cover the entire industry chain from raw materials to finished products, with a newly added "Beauty & Cosmetics Supply" to meet specialized sector demands, strengthening knowledge exchange.

—— **North China Pharmaceutical**

This year's CPHI exhibition was larger than last year's, with more international visitors creating valuable networking opportunities with potential partners. Expert forums provided insightful business development ideas, and we hope future exhibitions will further expand international exchanges.

—— **HIGHFINE**

Visitors' testimonials

The event was very well organized, especially the business matching, which allowed entrepreneurs to meet & talk with each other. The tables were arranged properly, with clear appointment times. It was very beneficial.

—— **Sermpisit**

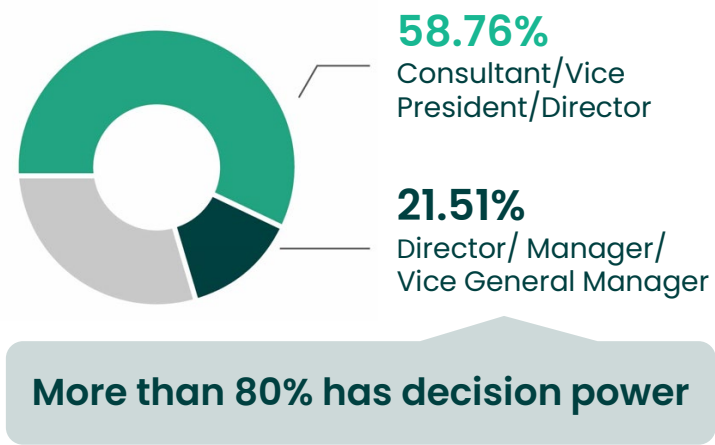

I'm very happy to participate in this event as I gained valuable insights on global pharmaceutical industry growth while connecting with principals, suppliers, and both existing and new contacts to discuss industry innovation together.

—— **G.P. Farmasi Indonesia**

At this exhibition, we focused on examining the pharmaceutical raw materials sector. The exhibits on display were rich and diverse, covering the full range of products from basic raw materials to innovative intermediates. Through in-depth exchanges with multiple high-quality suppliers, we not only obtained the latest market trends and product information, also successfully connected with several potential partners that meet our requirements. The professional organization also provided us with an efficient business negotiation environment, making the overall experience quite rewarding.

—— **Asymchem Laboratories**

Our three aims:

Running events in a **socially responsible** manner

Inspiring **sustainable developments** across our industry

Running events in an **environmentally responsible** manner

We are doing this by:

Inspiring sustainable developmments:

- The show enables sustainable development of the industry through content sessions focused on sustainability, accommodating the diversity of the audience.
- Various onsite conference sessions focus on the sustainable development of the pharmaceutical industry.

Running events in an environmentally responsible manner:

- A list of Green Contractors in the E-Manual as recommendations for exhibitors to use.
- Use of E-catalogues to reduce paper printing.
- Lanyards and event bags are made of recycled materials.

Running events in a socially responsible manner:

- Use of local suppliers for logistics, food, and data to support economic development in the local area.
- Dinners and evening programs are booked in the area around the event venue.
- A more diverse speaker panel.
